# ACRUs Blackwell calls out Democrat plan to steal military votes

Ignored by the media was Speaker Pelosi's attempt to make changes to military voting procedures in the COVID-19 relief package that would make it easier to steal service members' votes. But ACRU Policy Board Member Amb. Ken Blackwell noticed. Ken's powerful oped calling out Democrat attempts to making military votes easy picking for fraudsters is a stern warning, and a critical heads' up for every American.

# Vote fraudsters prey on America's seniors

Liberal political operatives troll senior communities for opportunities to manipulate the ballots of the greatest generation to make sure they "vote" for the candidate of the operative's choice. ACRU Senior Fellows Hans von Spakosvky and Christian Adams list examples of this detestable behavior in this editorial.

ACRU is the only organization focused on protecting the elderly from vote theft and suppression. Our ACRU <u>Protect Elderly Votes</u> project ensures our parents and grandparents in nursing homes are protected from staff and visitors who would manipulate or coerce votes from these unsuspecting elderly residents. Please help us support this vulnerable and oft forgotten group of citizens.

# Leftists promote false voting choice to scare Americans

New liberal talking point: "if we can't vote by mail (in 7 months) amid COVID-19 (in 7 months) Americans will have to choose between their health and their ballots." A group called "DemCast," full of self-avowed "disrupters" and Marxists, has given us their plan: anonymous, unverifiable registration and voting. We don't like to promote leftists, but we need to know what they are up to, and so do you.

# Progressives proposing Hunger Games for vote fraud

After acting in a trilogy about a tyrannical, command and control topdown government, actress Jennifer Lawrence is now in charge of ensuring enough fraud can be committed by the left to make sure we too have a tyrannical, command and control topdown government. Paid for by George Soros. What could go wrong? If voting from home wasn't a device to ensure nationwide fraud of patriotic ballots, liberals would not be pushing it.

# Georgia implements anti mail-in ballot fraud protections and task force

GA Secretary of State Brad Raffensperger must be reading ACRU's Election Integrity Bulletin fraud warnings. The Secretary has announced an effort to fight off fraud from mail-only voting programs by creating an Absentee Ballot Fraud Task Force, implementing important safeguards —and talking about it. Memo from ACRU to the nation's other 49 Secretaries of State: here's your model.

# The face of ballot harvesting fraud

This 2018 article documents ballot abuse of an elderly, blind woman from TX. Minnie Barela answered her door and a fraudster filled out Minnie's ballot, Minnie's boyfriend's ballot (he was not there) and walked off with them. The "politiquera" was later charged with vote fraud. Next time a liberal tells you the elderly are not targeted for ballot fraud, tell them about Minnie. Let's not have a 2020 repeat of this story.
