Resources and examples just for YOU on mail-only ballot problems and fraud

ACRU's Ken Blackwell questions why we would trust leftists to protect your vote when they won't protect you or your property

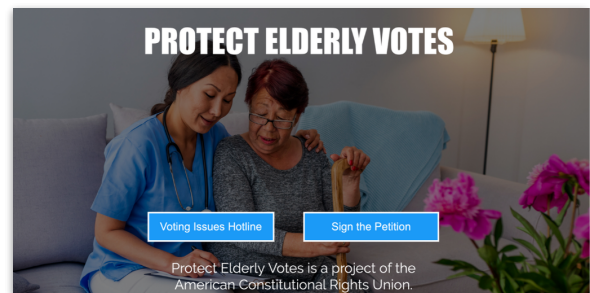

"The left and their chosen candidates have provided telling examples of their unwillingness to make ethical choices that protect citizens. Proving themselves willing to violate numerous critical social norms, they are unlikely to be concerned with violating just one more," states Blackwell.

ACRU's Toloczko explains: absentee and universal mail-only ballots are vastly different

There is a critical difference between absentee ballots and universal vote by mail. Absentee ballots intentionally requested by voters are generally secure, but universal Vote By Mail is subject to incompetent processing and open to fraud. Voters and elected officials must understand the enormous difference to protect election integrity. We hope you will use this article to spread the word.

ACRU's Blackwell calls for protecting elderly votes

"Our entire nation owes a great debt of gratitude to American seniors—those who served in the military, those who built our economy here at home, and those who raised us to love and honor our country. Please join ACRU through our [Protect Elderly Votes](#) website to ensure the security of every senior vote."

Do you have a friend or family member in a senior residence — independent or assisted living or nursing home? Do you work at one of these facilities? If so, we hope you will download our Senior Citizen Voter Bill of Rights—a great resource for you and those you care for to understand election protections for seniors in residential facilities.

ELECTION INTEGRITY BULLETIN

Military absentee ballots should be requested NOW

The US Military recommends that to be sure your ballot arrives on time, absentee ballot requests should be made by our military by August 1. But you still have time! States are required to mail ballots to you no later than 45 days before an election, but cannot do so without a request. Please visit our ballot assistance information page at [Protect Military Votes](#).

AN IMPORTANT RESOURCE FOR OUR EIB SUBSCRIBERS

Mail-only voting: unreliable with a high chance of losing your vote

Have you been tirelessly trying to explain that mail-only voting is not absentee voting, not safe, and does not guarantee your vote will be counted? To that end, instead of providing you with one story on the subject, we are giving you a PARTIAL list of mailed vote failures from recent primaries. We hope you will use this list as a resource for debates with folks who either don't understand the problem, or claim it does not exist:

California - 100,000+ mailed ballots not counted

Nevada - 223K mailed ballots not counted

New York - 80,000 mailed ballots not counted

Ohio - 300 mailed ballots not counted in one county

Florida - 18K+ mailed ballots not counted

Framers' Corner

"Government is instituted for the common good of the people; not for the profit or private interest of any one man, family, or class of men."

John Adams, draft of the Massachusetts Constitution 1780.

ELECTION INTEGRITY BULLETIN

AROUND THE NATION

Democrat groups call for election month

The Constitution is a malleable document for liberals. When it suits their needs, they use it. When it doesn't, they ignore it. Article I makes it clear that the authority to determine the date and time of elections is not vested in liberal activists or their lawyers who now want to extend the national election to ... whenever. This is why judicial appointments matter.

Protect Military Votes

Support Fair Voting

As COVID-19 has presented unique financial challenges to non-profit organizations such as ours, please consider a financial donation to support these critically important initiatives. We can't do it without you!

To find more information and additional articles on vote security, visit ACRU's [Voting Integrity Institute](#).

Please support our efforts to maintain the integrity of military votes by visiting our [Protect Military Votes](#) project. To advocate for senior voting rights, visit [Protect Elderly Votes](#).

Here it comes: elections decided by liberal judges

If liberal activists can't extend voting to whatever random date they choose, perhaps their Plan B is to have liberal judges demand that disqualified votes become qualified. Before you know it, property destruction, looting and assault won't be crimes either. Oh, wait ...

ACRU is the only organization focused on protecting the elderly from vote theft and suppression. Our ACUR [Protect Elderly Votes](#) project ensures our parents and grandparents in nursing homes are protected from staff and visitors who would manipulate or coerce votes from these unsuspecting elderly residents. Please help us support this vulnerable and oft forgotten group of citizens.
