Shocking new info! Informant blows whistle on Dem Vote Fraud

ACRU's Toloczko calls for encouraging and protecting military voters

ACRU's Protect Military Votes Project designated September 1, 2020 as "Military Voter Readiness Day" to encourage military service members to register and vote in time to make sure their votes are counted. In this editorial for American Military News, our VP of Policy (and Army mom,) Kerri Toloczko, notes we have an imperative as civilians not just to protect the votes of our Armed Forces, but to honor them.

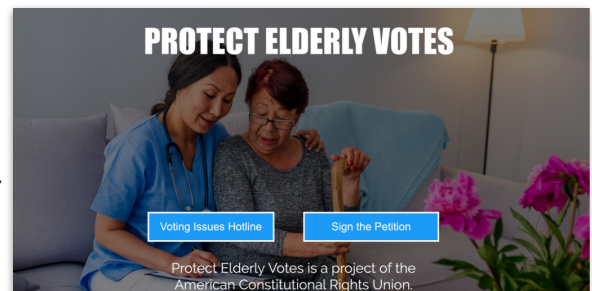

Protect Military Votes

Military absentee ballots should be requested NOW

At [Protect Military Votes](#), we designated September 1, 2020 as "Military Voter Readiness Day" to ensure military ballots have enough time for delivery both overseas and at home. We encourage service members and spouses to register to vote and request an absentee ballot TODAY. If you have a friend or family member in the Armed Services, please send them to [Protect Military Votes](#) for all the registration and request links they will need.

ACRU's Blackwell calls for protecting elderly votes

"As seniors transition into senior residences, they are a captive audience for fraud activists (noted by Amb. Blackwell [here](#).) As groups like the SEIU and the League of Women voters join liberal politicians to push for relaxing vote security and legalizing ballot harvesting, voters in institutional settings are most at risk. Please visit our [Protect Elderly Votes](#) website to find out what you can do to protect the votes of our greatest generation."

Amb. J. Kenneth Blackwell, ACRU Policy Board Member

ELECTION INTEGRITY BULLETIN

An important resource from ACRU for America's voting seniors

Are you employed at a senior residence — independent, assisted living, or nursing home? Do you have a family member in one of these facilities? If so, we hope you will download our Senior Citizen Voter Bill of Rights—a great resource for you and those you care for to understand election protections for seniors in residential facilities.

ACRU's Roman encourages every voter to be a "VIP"

"Voting in Person is the only way to ensure your vote is delivered and counted in November. Despite liberal media claims, nearly 600,000 mailed ballots went uncounted in the primaries, and vote fraud activists want to take your ballot and 'deliver' it to the polling station—passing trash cans along the way. We must never trust a stranger to deliver or handle our votes. Take precautions—and be a VIP."

Lori Roman, President of ACRU

AROUND THE NATION

A shocking admission about institutionalized vote fraud

This story gave us chills. It proves what ACRU and our supporters have noted for months -- vote fraud is not just rampant — but organized. Voting in person is the solution to making sure someone doesn't slap a strip over duct tape over YOUR vote by fraudulently submitting others. We fear this unprecedented admission of felony vote tampering is just the tip of a very disturbing iceberg. As Lori says, "be a VIP!."

Framers' Corner

"There is nothing so likely to produce peace as to be well prepared to meet an enemy. "

ELECTION INTEGRITY BULLETIN

Vote fraud is so real in New Jersey it caused a re-vote

A New Jersey ballot harvesting fraud case (perpetrated by candidates facing criminal charges) is costing taxpayers \$\$\$ and the angst of a re-vote. Ballots for this race were also magically found in other towns. Despite this evidence—and as Kerri recently wrote about [here](#) — liberals are making the realities of vote fraud a referendum on Trump instead of advocating for vote security.

Mail-in vote system in Detroit deemed “a mess” by election officials

In a city (over)run by Democrats for decades, voting in Detroit’s recent primary was utterly corrupted. When 72% of its precincts reported bad vote counts, the State Board of Canvassers called it “alarming.” Liberal Secretary of State Jocelyn Benson has so far ignored concerns. Within Detroit’s 78% African American population, 40% live in poverty, and the unemployment rate is 21%. These citizens need their political voices heard and protected.

Support Fair Voting

As COVID-19 has presented unique financial challenges to non-profit organizations such as ours, please consider a financial donation to support these critically important initiatives. We can’t do it without you!

To find more information and additional articles on vote security, visit ACRU's [Voting Integrity Institute](#).

Please support our efforts to maintain the integrity of military votes by visiting our [Protect Military Votes](#) project. To advocate for senior voting rights, visit [Protect Elderly Votes](#).

2020 Primaries show mail-only voting is anything but safe

According to National Public Radio, the 550,000 absentee ballots not counted in 2018 PRIMARIES is 42% higher than those not counted in the 2016 GENERAL election. Considering the bias of NPR, maybe it’s even worse? When your liberal friends tell you that mail-only voting is safe, secure and counts every vote, just send them this link.

Another dead voter in New Mexico

It’s not funny, actually. A grieving New Mexico widow visited her county election office to ask them to stop sending absentee ballots to her deceased husband who had passed away the year before in another state. That’s when they discovered her husband had actually voted from the grave. But not only did he not vote; she didn’t either despite having a vote registered in her

name. Fraud times two because of universal vote by mail, only discovered when this lady took her civic duty seriously.

Washington State election expert recognizes looming VBM dangers

“Universal voting by mail is an attractive and easy unconventional warfare target for the creation of election chaos, causing civil unrest and destabilizing society in general.” From personal and professional experience, former deputy prosecuting attorney Barney Waldrop speaks up about the importance of voting in person and the dangers of universal vote by mail.

ACRU is the only organization focused on protecting the elderly from vote theft and suppression. Our ACRU [Protect Elderly Votes](#) project ensures our parents and grandparents in nursing homes are protected from staff and visitors who would manipulate or coerce votes from these unsuspecting elderly residents. Please help us support this vulnerable and oft forgotten group of citizens.

AN IMPORTANT RESOURCE FOR YOU – OUR EIB SUBSCRIBERS

Before voting, mass-mailed ballot applications are already a problem.

Are you confronted by liberal friends with claims that “mail-only balloting is safe?” It isn’t. Even before voting, and in addition to mailed ballots left uncounted, bulk mailing of unverified and incorrect ballot applications sent out erroneously because of poorly maintained voter rolls is a problem. Here’s some evidence for you to help you help others understand.

Virginia - 500,000 incorrect applications sent out

Michigan - More registered Detroit voters than living adults all get applications

Indiana - Democrat precinct chair accused of ‘pre-marking’ 300 ballot applications

North Carolina and nationwide - liberal group mails applications partially filled out

Pennsylvania - watchdog group finds 800K questionable registered on county voter rolls

More than 18,000 mail ballots not counted in Florida’s March presidential primary
